

TECHNICAL FRAMEWORK 2026

WEB SOLUTION BMS PLATFORM

Expert Team

Full Support

Proven Results

WHO IS THIS *FOR?*

Web Solution BMS fits any company that wants to manage all operations in one place.

Agencies & Freelancers

Projects, invoices,
client management

Trading Companies

Inventory, sales,
CRM & warehousing

Manufacturing

BOM, routings,
production orders

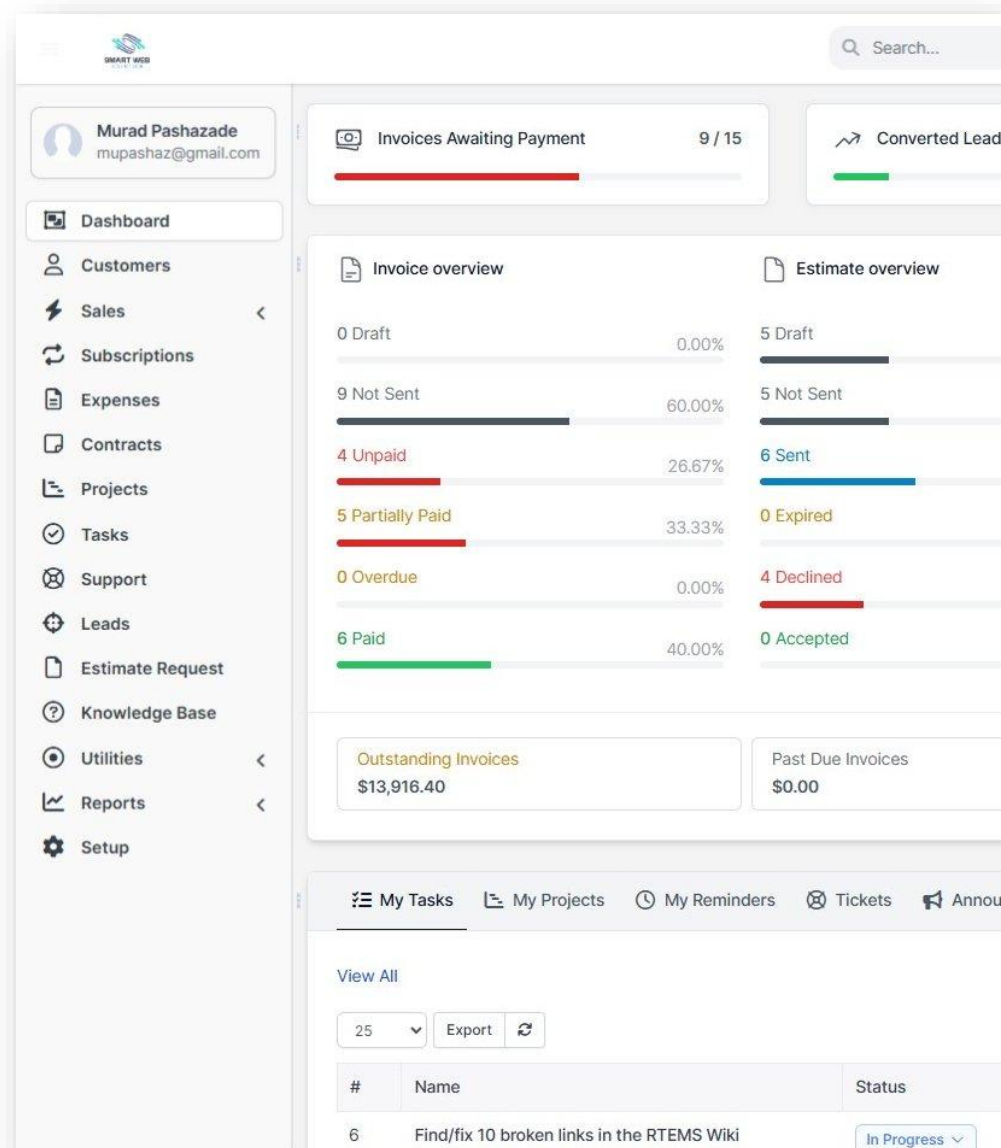

IT & Service Companies

Tasks, time-tracking,
HR & reporting

Small & Medium Business

All-in-one platform,
predictable costs

The screenshot displays the SMART WEB SOLUTION dashboard for user Murad Pashazade (mupashaz@gmail.com). The interface includes a sidebar menu with options: Dashboard, Customers, Sales, Subscriptions, Expenses, Contracts, Projects, Tasks, Support, Leads, Estimate Request, Knowledge Base, Utilities, Reports, and Setup. The main content area features several widgets:

- Invoices Awaiting Payment:** A progress bar showing 9 / 15 invoices.
- Converted Lead:** A progress bar showing conversion status.
- Invoice overview:** A table showing invoice status distribution:

Status	Count	Percentage
0 Draft	0	0.00%
9 Not Sent	9	60.00%
4 Unpaid	4	26.67%
5 Partially Paid	5	33.33%
0 Overdue	0	0.00%
6 Paid	6	40.00%
- Estimate overview:** A table showing estimate status distribution:

Status	Count
5 Draft	5
5 Not Sent	5
6 Sent	6
0 Expired	0
4 Declined	4
0 Accepted	0
- Outstanding Invoices:** \$13,916.40
- Past Due Invoices:** \$0.00
- My Tasks:** A list of tasks with a "View All" link, a dropdown for 25 items, and buttons for "Export" and "Refresh". The first task is "Find/fix 10 broken links in the RTEMS Wiki" with a status of "In Progress".

RUN EVERYTHING *MISS NOTHING*

One platform to manage your people, projects,
and performance – from task to report.

BMS is a powerful, all-in-one business management platform designed to help companies of any size run smarter – not harder.

From tracking leads and closing deals to managing payroll and monitoring project progress in real time – BMS gives you complete visibility and control over every part of your business.

With built-in AI support and native mobile apps for Android and iOS, your business stays connected wherever you are.

INTELLIGENT *ECOSYSTEM*

Experience the next generation of business management with seamless agility and unified digital sovereignty across all enterprise frameworks.

Laptop Excellence

Optimized desktop interfaces providing high-performance analytics and deep administrative control for 2026 business environments.

01. DESKTOP

Tablet Agility

Leveraging advanced frameworks to deliver a unified touch-optimized interface for superior mobility and on-site management.

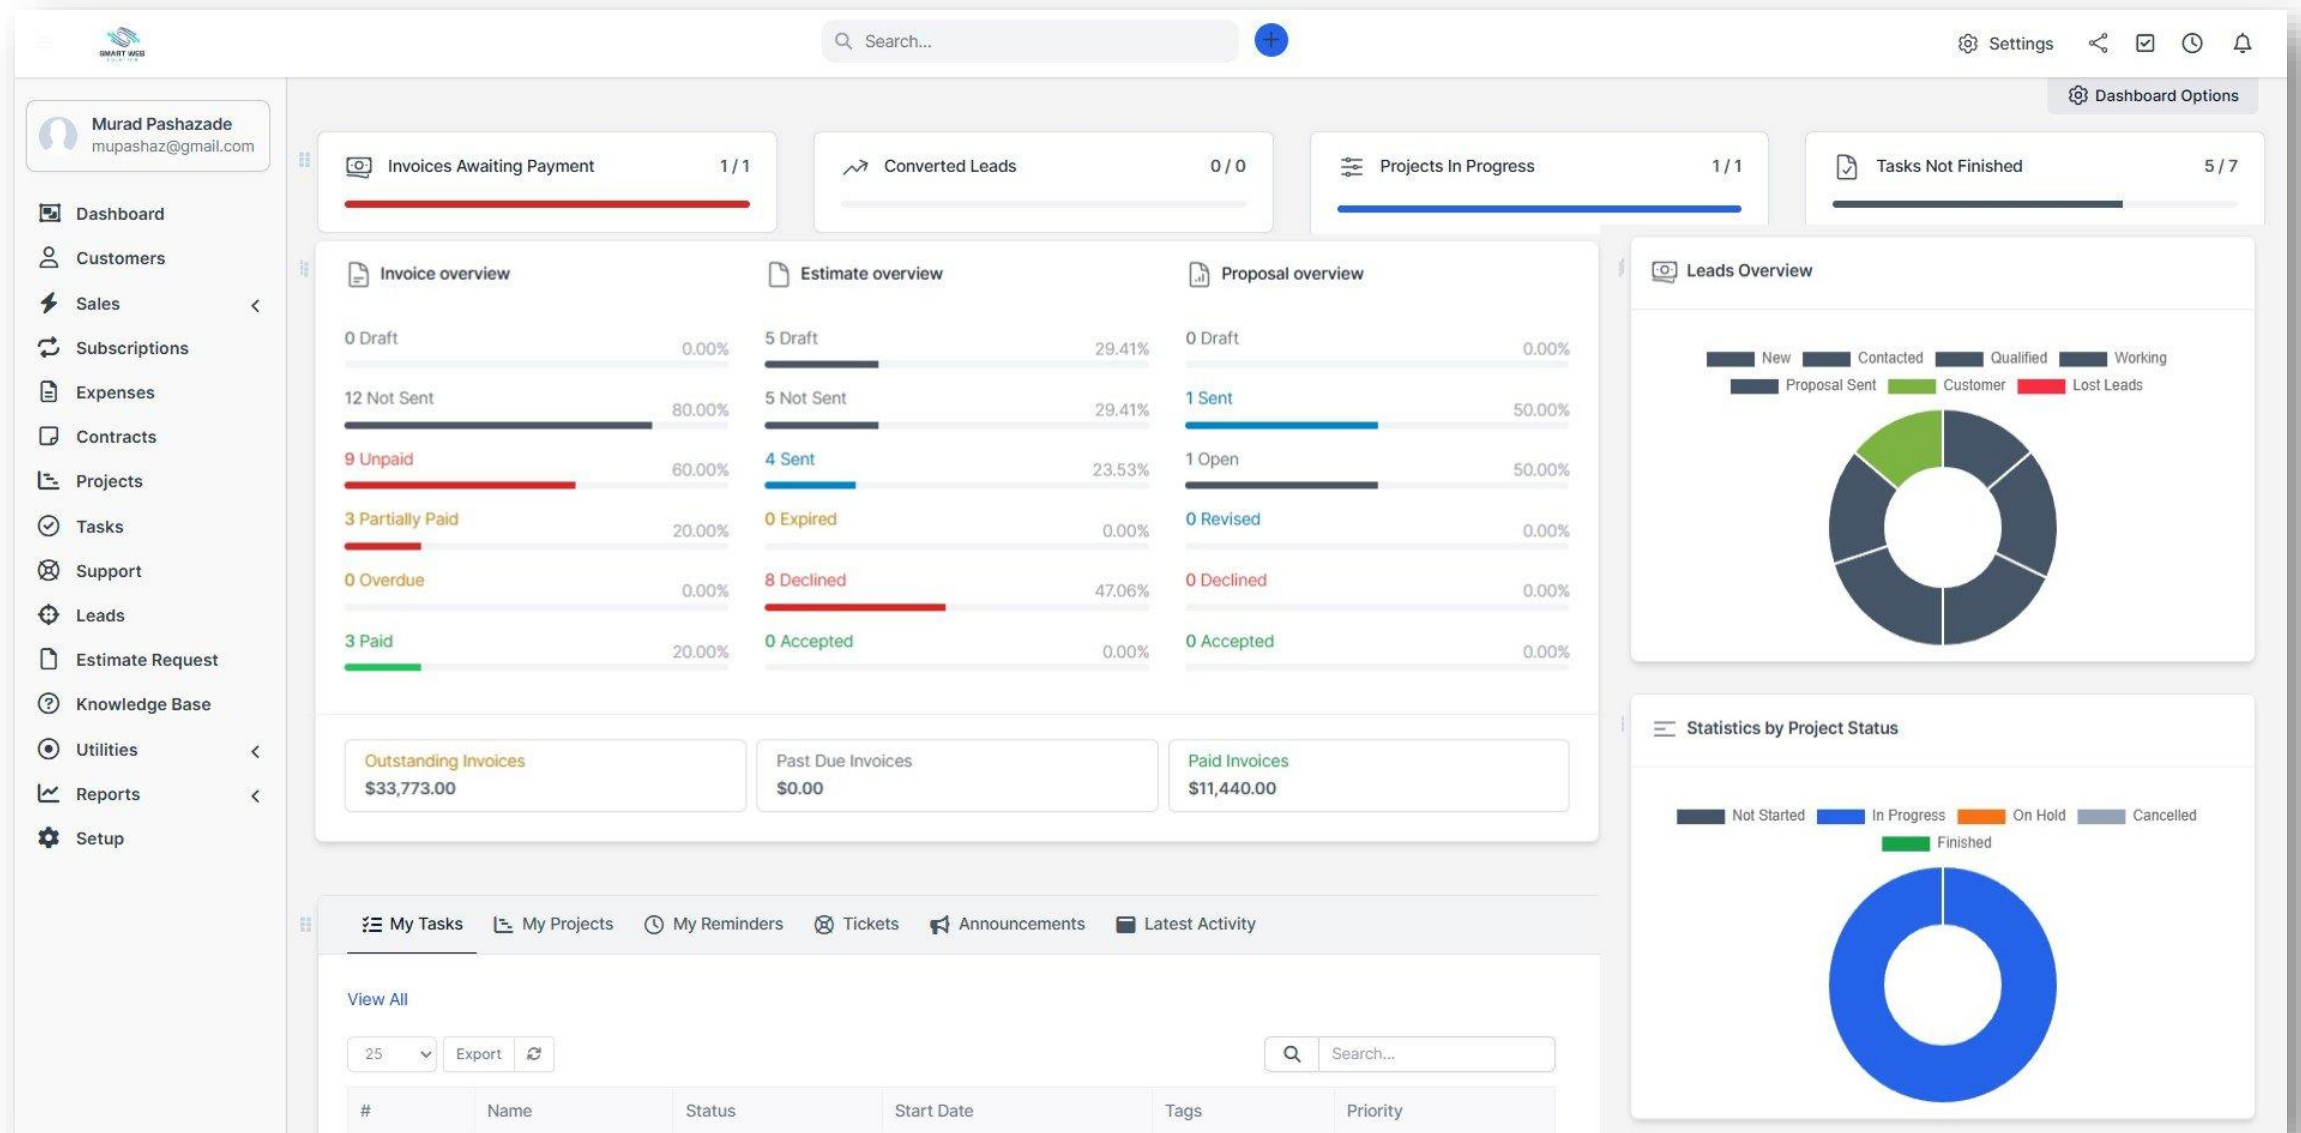

02. PORTABLE

Smartphone Speed

Stay agile with real-time responsiveness and cross-platform synchronization, ensuring total control from any handheld device.

03. MOBILE

WHY CURRENT CRM & *ERP SLOW GROWTH*

Data Control & Costs

High risks and total dependence on third-party cloud platforms leads to data out of control, while recurring fees for new users escalate costs.

Modern businesses face critical bottlenecks where traditional systems become liabilities. From lack of data sovereignty to paralyzing technical lags, these challenges directly undermine operational agility and revenue potential.

Efficiency & Performance

Sluggish 10–15s response times on shared servers force managers into manual routines over sales, wasting hours on forms instead of deals.

DIGITAL *SOVEREIGNTY*

Experience unmatched control and flash-speed performance. Our architecture prioritizes your data independence while delivering real-time synchronization for seamless enterprise operations across all digital touchpoints.

Self-Hosted Architecture

Complete control with systems deployed on your own company servers for total autonomy.

Digital Sovereignty

Your data belongs strictly to you, protected by private encryption keys and protocols.

Predictable AI Costs

Smart pay-as-you-go model ensures you pay only for active compute time utilized.

Flash Response

1–2 second interface actions with 100% real-time sync across Web and Mobile.

NATIVE INTEGRATION

Deep connection with Google Gemini Flash via REST API. Intelligence that transforms management through seamless data flow.

MULTILINGUAL EXCELLENCE

Context recognition in Azerbaijani, Russian, and English. High-precision linguistic processing for global business operations.

HANDS-FREE CRM

Voice-driven commands to create leads, tasks, or invoices instantly. Eliminate manual data entry and increase field efficiency.

INSTANT ACCOUNTING

Automatic data extraction from physical invoices via photo scanning. Smart OCR technology for rapid financial documentation.

BMS AI: INTELLIGENCE *THAT EXECUTES ACTIONS*

3-sentence client dossiers generated automatically before calls.

FROM FIRST CONTACT *TO PROJECT DELIVERY*

CRM & LEAD GENERATION

Optimize initial engagement with Smart Lead Scoring and customized Kanban boards to track potential client interactions efficiently.

PROJECT MANAGEMENT

Seamlessly convert won deals into active projects with predefined Milestones and linked tasks to ensure continuous delivery momentum.

TEAM COLLABORATION

Leverage custom workflow templates and multiple staff assignments to align resource distribution with complex project requirements.

PRECISION TIME- TRACKING

Implement automated transparent invoicing based on billable hours to maintain financial integrity and client trust throughout the cycle.

SALES & *FINANCE*

Streamlining enterprise operations through integrated accounting and control.

Master inventory via SKU and serial tracking while optimizing production through Bill of Materials (BOM) and routing control.

Achieve end-to-end efficiency by synchronizing financial data with real-time manufacturing and sales workflows.

01 End-to-End Accounting

1-click conversion from proposals to invoices.

02 Automated Workflows

Recurring billing and payment reminders.

03 Inventory Management

Multi-attribute tracking (SKU, Serial, Barcodes).

04 Manufacturing

BOM control and production routing.

DIGITAL HR & *PERFORMANCE ARCHITECTURE*

Transform your workforce management with an integrated digital infrastructure. Centralize administration, automate performance tracking, and foster a connected corporate culture.

Staff Administration

- Digital employee cards with tax details, banking info & contract status
- Manage shifts, leave tracking, insurance and salary bonuses
- Payroll, payslips, job positions and workplaces

Performance Metrics

- Attendance monitoring and time-tracking per employee
- KPI analytics and strategic OKR Goals Tracking
- Performance evaluations and training management

Corporate Environment

- Company Newsfeed, Announcements and shared Events calendars
- Built-in Surveys to measure team or client retention
- Staff reminders, tasks and recurring notifications

Enterprise Security

- Role-based access control across all modules
- Segregated Media Library for non-admin staff
- Document management with full audit trail

SEAMLESS *INTEGRATIONS*

The screenshot displays the 'Channels' section of the Smart Web CRM. At the top, there's a search bar and a '+ Add channel' button. Below this, a summary shows '0 total' and '0 active' channels. The main area contains five channel cards:

- Instagram**: Instagram · #7, ACTIVE, Receiving messages. Account: @tic.jdelgado.
- Web Chat Demo**: Web Chat · #8, ACTIVE, Widget ready. Widget: Snippet in -- menu.
- Messenger Demo**: Messenger · #9, ACTIVE, Receiving messages. Page: messenger-demo.
- Telegram Demo**: Telegram · #10, ACTIVE, Receiving messages. Bot: telegram-demo.
- Email Demo**: Email · #11, ACTIVE, Receiving messages. Address: soporte@demo.com.

A left sidebar lists navigation options: Dashboard, Customers, Sales, Subscriptions, Expenses, Contracts, Projects, Tasks, Support, Leads, Estimate Request, Knowledge Base, Utilities, Reports, and Setup.

POWER IN *THE DETAILS*: SYSTEM SCALE

Complete Enterprise Scaling

Automate your enterprise with over 50 built-in features in one interface, optimizing efficiency and scale for 2026. This centralized approach eliminates fragmentation and accelerates operational workflows.

- ✓ Unified System Architecture
- ✓ Real-time Data Integration

Comprehensive Tools

Advanced Project Milestones, PDF Contracts generation, and detailed Activity Logs for transparency.

Management Suite

Dynamic Estimates Generator, customizable Email Templates, and robust Analytical Reports.

Efficiency Boosters

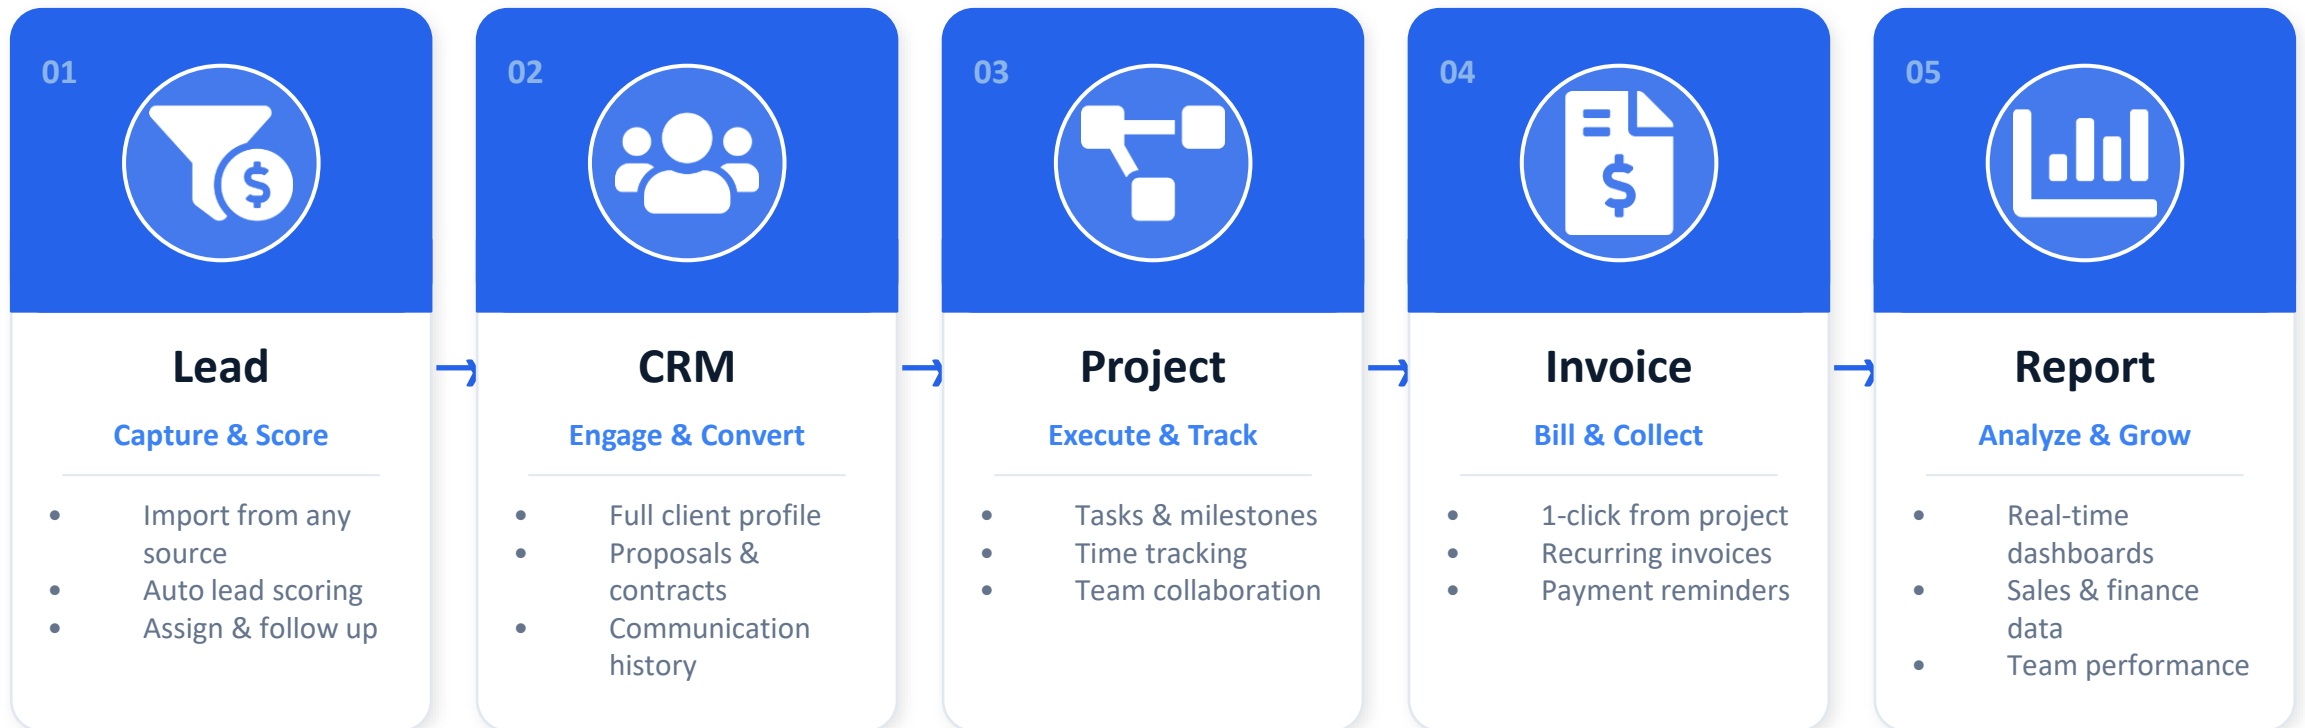

Automated Recurring Tasks, intelligent Follow-ups, and Personal To-Do Lists.
